

## The NEW Standard in Water Service Tubing

Gold901™ is a lightweight, easy to install, 250 psi rated water service tubing that can be used on both the municipal and private-side of a project.

Gold901 is manufactured to Copper Tube Size (CTS) from High-Density Polyethylene (HDPE) and is third-party certified and listed to AWWA C901, CSA B137.1 and NSF 61.

Gold901 is conveniently available in both coils and reels and is available in 3/4" to 2".

### Standards

### Product Selection Chart

Nominal Pipe Size inches	mm	Coil Length feet	Product Code	O.D. Average (in)	I.D. Average (in)	Min. Radius of Bend (in)

#### Features & Benefits:

- **Non-corroding**  
Resistant to corrosive soils, aggressive water, stray electrical currents and moist environments
- **Lightweight**  
A 200 foot coil of 3/4" Gold901 weighs 20 lbs
- **Sequential Markings**  
Every 2 or 5 feet
- **Superior Flow**  
Hazen Williams  
C-Factor = 150
- **High Pressure**  
Rated at 250 psi at 73°F  
(1,725 kPa at 23°C)
