

COR-LINE® & KWIKON® 2-1/2" ENT and Fittings

IPEX offers Cor-Line® ENT and Kwikon Fittings in sizes up to 2-1/2". The 2-1/2" size is designed to accommodate larger aluminum conductors that are used in slab construction today by adding 50% more usable space than 2" ENT.

2-1/2" Cor-Line and Kwikon are UL and CSA approved for power and datacom in concrete encased applications and include all the same labour saving features that contractors have come to appreciate in smaller sizes.

2-1/2" Cor-Line ENT & Kwikon Fittings

Description	Part Number	Product Code	Packaging
Cor-Line ENT	-	012049	325' Reel
Coupling	KC40	089075	12 Units / Carton
