

## AquaRise® One-Piece Ball Valves

AquaRise® One-Piece Ball Valves (OPBV) eliminate the need for adapters; fewer connections means saved time and money.

AquaRise OPBVs are ideal for high pressure systems or for applications that do not require a serviceable connection. These valves are lightweight and compact, yet robust.

Size (inches)	Product Code
1/2	359070
3/4	359071
1	359072

### The Cost-Effective, Time-Saving Alternative to Metal Systems

AquaRise is a CPVC potable water piping system for commercial and high building construction. It offers numerous benefits over metal with a system that's fully approved for noncombustible applications.

- Fully certified
- Easy transitions
- Meets Flame & Smoke requirements
- Solid alternative to metal
- Permanent joining system
- Long-term performance
- Project savings

### Features and Benefits:

- One-piece valve body
- 400 psi @ 23°C (73°F),  
150 psi @ 71°C (160°F)
- Same hot and cold pressure ratings as AquaRise Hot and Cold (SDR 11) pipe
- Compact, lightweight design
- Permanent, solvent weld joints
