

IPEX VA Air Release Valve

Viton® Advantages:

- Offers increased resistance against an extensive range of chemicals.*
 - Can be used in most applications involving mineral acids, salt solutions and petroleum oils.*
 - Particularly good in hydrocarbon service, and has a wide service temperature range.*
 - Part of the IPEX Xirtec® system of pipe, fittings, valves and accessories.
- * Please consult the IPEX Chemical Resistance Guide for complete valve body and Viton® o-ring material-fluid compatibilities.
