

3" x 4" x 6" PVC Downspout

This PVC downspout adapter is a solvent weld sewer fitting that can be used for non-pressure drainage of sewage and surface water.

Dual Functionality

The IPEX USA LLC 3" x 4" x 6" Downspout Adapter has been designed with dual functionality, allowing you to use the same adapter for different applications. The 6" round end can function as a spigot (inside a Schedule 40 hub) or as a hub (for SDR35 pipe).

The 3" x 4" x 6" Downspout Adapter is now in stock and available for purchase.

Non-Pressure Solvent Weld Sewer Fittings
