373029	10" x 10" x 3/4" TAP TEE (B x B x AWWA)
373030	10" x 10" x 1" TAP TEE (B x B x AWWA)
373031	12" Repair Coupling (B x B)
373032	12" Coupling (B x B)
373033	12" x 12" x 3/4" TAP TEE (B x B x AWWA)
373034	12" x 12" x 1" TAP TEE (B x B x AWWA)

Blue Brute® PVC Fittings (CIOD)

Blue Brute fittings are injection molded and are even tougher than the pipe. Injection molded Blue Brute fittings have a wall thickness 125% larger than SDR18 pipe, and custom-made fabricated fittings are wrapped with a tough layer of fiberglass for extra protection.

All Blue Brute fittings are shipped with standard gaskets that accept cast-iron-sized PVC pipe. Transition gaskets for IPS-sized pipe are an option for all sizes. For applications where fittings must be buried in soil with hydrocarbon contamination, Nitrile gaskets are available.

FEATURES & BENEFITS

- A thicker bell that results in a more robust fitting.
- Fittings labeled with the O.D. for easy identification and restraint selection.
- CIOD, IPS and Nitrile Gasket Options

Blue Brute® is manufactured by IPEX Inc. and distributed in the United States by IPEX USA LLC.
