

Restrainers can be a critical part of any municipal water line under pressure. To ensure compatibility and availability of restrainers for the new 10" and 12" molded C907 Blue Brute fittings IPEX has worked with several leading restrainer suppliers.

The following suppliers have independently qualified their restrainers with these new fittings:

1. [Ford Meter Box](#)
2. [Ebaa Iron Sales](#)
3. [Clow Canada](#)
4. [Sigma](#)
5. [WD Industrial](#)
6. [Star Pipe Products](#)

IPEX will update this list as additional manufacturers qualify approve their product.

The list is available at ipexna.com.
