

IPEX solvent cements and primers have received **UL GREENGUARD Gold Certification**

GREENGUARD-certified products are scientifically tested on an ongoing basis to meet some of the world's most demanding, third-party chemical emissions standards. Products with this designation are proven to help reduce indoor air pollution and the risk of chemical exposure, while aiding in creating healthier indoor environments.

The GREENGUARD Gold Certification standard includes health-based criteria for additional chemicals beyond the GREENGUARD Certification. The Gold certification requires lower total Volatile Organic Compounds (VOC) emissions levels to ensure that products are acceptable for use in environments like schools and healthcare facilities.

To search which products are certified and view/download their certificates, please visit the [SPOT UL website](#).

1. Open the SPOT UL website
2. Search via product number, code or name
3. View and download the UL GREENGUARD Gold certificate
