

5 Additional Sizes for TerraBrute® CR

IPEX launches 5 new TerraBrute® CR sizes, including the industry-leading large diameter 24" pipe. Engineered for Horizontal Directional Drilling (HDD) and other trenchless applications, TerraBrute® CR is a 100% non-metallic, AWWA C900 PVC pressure pipe system. Non-corroding and installation-friendly, TerraBrute® CR allows you to standardize on PVC throughout your potable water and sewer infrastructure.

235 psi and 305* psi pressure rating

Nominal Diameter		Product Code	Maximum Allowable Pulling Force lbs.	Max Outside Diameter (Bell OD)		AVG Internal Diameter	
in	mm			in	mm	in	mm
• 4	100	070258	11,200	6.49	165	4.09	104
• 6	150	070259	24,700	9.06	230	5.87	149
8	200	070260	25,800	11.33	288	8.03	204
10	250	070261	42,100	14.00	355	9.84	250
12	300	070262	61,800	16.36	416	11.69	297
NEW 14	350	070270	80,000	19.20	488	13.50	343
NEW 16	400	070271	100,000	21.60	549	15.35	390
NEW 18	450	070272	130,000	24.10	612	16.66	423
NEW 20	500	070273	160,000	26.80	681	18.46	469
NEW 24	600	070274	195,000	31.70	805	22.02	559

Feature & Benefits:

- 20 years in operation
- Over 600 km in operation across North America
- Quick, easy, and simple to assemble
- Complete corrosion resistance
- CIOD sizing, designed for total compatibility with municipal systems
- Strongest mechanical joint in industry
