Short Form Specifications

IPEX SYSTEM 15 Drain, Waste and Vent pipe and fittings shall be certified to CSA B181.2. When combustible pipe and fittings are used in buildings required to be of noncombustible construction, they shall be listed by an accredited agency to the standard CAN/ULC S102.2-10 and clearly marked with the certification logo indicating a Flame Spread Rating not greater than 25.

System 15 DWV pipe and fittings are not permitted in buildings classified as High-Rise, ceiling spaces used as Return Air Plenums nor Vertical Service Spaces all as defined by Code.

Firestop devices are required whenever System 15 DWV penetrates a vertical or horizontal fire separation. The firestopping device shall be listed to CAN/ULC-S115 for use on PVC pipe in a DWV application and must be tested with a 50 Pa pressure differential.
